PROFESSIONAL SUMMARY

Experienced Software Team Lead & Senior Next.js Developer with 10+ years in web development, leading teams to deliver scalable e-commerce, LMS, and high-traffic applications.

WORK EXPERIENCE

Software Team Lead | Digital Car
October 2022 – Present | Cairo, Egypt

- Led cross-functional teams to develop and maintain high-traffic web applications, including **Digital Car E-Commerce** (Next.js, React.js) and **Maysan Jobs Platform** serving thousands of users. Managed full SDLC, implemented CI/CD pipelines, and improved development efficiency through code review processes and stakeholder collaboration.

Senior Frontend Developer | ArabProspect
November 2021 – October 2022 | Cairo, Egypt

- Developed **CourseTopia SaaS LMS** (Next.js, React.js, Redux Toolkit) with optimized performance, integrated APIs, pixel-perfect UI, and mentored developers through code reviews.

Full Stack Developer | Abha + Jazan Chamber of Commerce
January 2020 – October 2021 | Remote – Kingdom of Saudi Arabia

- Developed **Coursaty E-learning platform** (Laravel, PHP, MySQL, Bootstrap) serving 2000+ students with testing, certification, payments, and user management. Built **Ghorfajobs talent acquisition platform**, optimizing database schemas and delivering responsive, scalable frontends.

Full Stack Developer | Sun Systems
June 2015 – December 2019 | Damietta, Egypt

- Developed Real Estate Broker Management and Accounting Systems with PHP, MySQL, jQuery, and Bootstrap, featuring inventory, financial reporting, and responsive interfaces with ongoing maintenance.

IT Instructor & Branch Manager | AL-Alamiah High Institute
October 2012 – May 2015 | Jeddah, Kingdom of Saudi Arabia

- Delivered **Cisco ITE** and **Cambridge IT** training, managed branch operations, developed curricula, achieved 95% student satisfaction, and improved certification pass rates through accredited programs.

Web Developer | 2Findme (Nile Technology)
November 2011 – September 2012 | Cairo, Egypt

Developed **GPS tracking web app** with real-time mapping, fleet management, and reporting using PHP, MySQL, jQuery, and Delphi, optimized for large-scale location data.

EDUCATION

Bachelor of Computer Science | Mansoura University
2007 – 2011 | Mansoura, Egypt

GPA: Very Good

Advanced Web Development Nanodegree | Udacity FWD
2022 | Online

Focus: React Cross-skilling Program - Advanced React.js, Next.js, and modern web development practices
